

SKRETTING
a Nutreco company

Necto

The shift
towards resilience

Resilient fish that can respond to the complexities of modern aquaculture are crucial.

Necto is an innovative solution that binds beneficial ingredients in a novel and synergistic way.

Key attributes

01

Fish resilience

Supported by Necto, resilient fish are better equipped to respond to challenging conditions and environmental pressures.

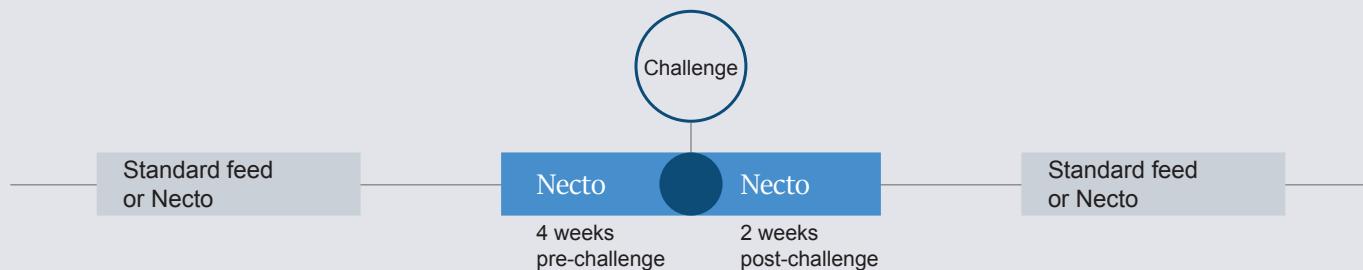

02

Reducing the risk of inflammation

Inflammation can be triggered by a variety of causes. Necto contributes to balance the inflammatory responses.

Feeding recommendation

Use Necto continuously, or for 4 weeks before a challenge.

Skretting is a world leader in the manufacture and supply of aquaculture feeds, making us an essential link in the feed-to-food chain. We apply our knowledge of ingredients and the nutritional needs of fish and shrimp to develop innovations that achieve optimum nutritional value, sustainable production and economic performance as we seek to fulfil our company-wide purpose of 'Feeding the Future'. In 2024, through our feed, we contributed to the production of more than 24 million portions of seafood meals each day across the globe.
